<https://github.com/kasularoja>

## SUMMARY

Motivated and adaptable professional with strong problem-solving and communication skills, well-suited for collaborative and fast-paced environments. Gained hands-on experience with HTML, CSS, React, and Java through coursework, including the successful completion of a Discount Deals project that demonstrated front-end development and user interaction skills. Seeking a role where I can contribute to web or software development teams, continue building responsive applications, and grow in a dynamic, tech-driven environment.

## LANGUAGES | FRAMEWORKS | TOOLS

HTML, Java, JavaScript | React, Spring Boot, Django | MySQL Workbench

## EXPERIENCE

### **SWOT Analysis for Implementing Cloud Computing on IT Infrastructure Management Project - Webster University**

- Analyzed organizational impact of adopting cloud systems with detailed SWOT matrix.
- Evaluated strategic considerations including cost-efficiency, security risks, and vendor dependence.
- Delivered a comprehensive 20+ page report with data visualizations and implementation recommendations.

### **Discount Deals Project- Launchcode Capstone Project**

- A web application that aggregates and displays discounted products from various categories, helping users find the best deals quickly.
- Developed the front-end interface using React and CSS to ensure a responsive and user-friendly design.
- Designed and implemented dynamic filtering and search functionality to allow users to easily browse deals by category and price.
- Built backend services in Java to handle discount calculations, data storage, and API integration for real-time deal updates.
- Full Project Tech Stack: HTML, CSS, JavaScript, React, Java, REST API, JSON

## EDUCATION

**LaunchCode**, Full Stack software development, 2025

**Webster University**, Masters, Information Technology Management
